

TMI Shipment Road Closure and Detour Information

The new steam generators being transported to TMI are replacement components. They contain no radioactive materials. Signs will direct drivers to detours. For additional information, please see <http://www.us.aveva-np.com/tmisteamgenerator>.

The following road closures and delays are pending on unforeseen delays and weather-permitting:

September 8th: Affects Cecil County, Maryland

- MD 222 will close from MD 276 to Bainbridge Naval Training Center Historical Association Inc.
- MD 222 traffic will be detoured via MD 276 (Jacob Tome Memorial Highway) and MD 275.

Signs will direct travelers through the detours. This closure is anticipated to last two days. Local access will be available to residences and businesses along the delivery route as long as safe to do so. Motorists are advised to allow extra time when traveling through the area as delays will occur. The move will take place between sun up and sun down.
